

# Harel Natan, Full Stack Developer

---

0585877822 | [HarelNatan7@gmail.com](mailto:HarelNatan7@gmail.com) | [LinkedIn](#) | [GitHub](#)

**Experienced Full Stack Developer with excellent attention to details, writing clean and maintainable code, can collaborate effectively with other teams and work independently with limited supervision or feedback.**

## **Projects:**

[Anyday \(Monday Clone\)](#) | [View Demo](#) | [View Code](#)

- Designed and developed a **Monday.com Clone** in only 12 days, Using the MERN stack with smart components, Pixel Perfect, Live chat, Facebook login, Drag and Drop and full implemented CRUD.
- Technologies used: React.js, Redux, SASS, JavaScript, Node.js, MongoDB, Express.js, Socket.io and RestAPI.

[AstroNote \(Google Keep Clone\)](#) | [View Demo](#) | [View Code](#)

- Created a **Google Keep Clone** using React.Js with features including text, images, videos and list type notes, pinning notes and full implemented CRUD.
- Implemented a user-friendly and visually appealing user interface and user experience.

## **Experience:**

[Military Officer](#) | [Aug 2018 – Oct 2022](#)

- Vice Company Commander: Reduced the amount of failed soldiers by 15% by optimizing the training program and adapting it to a new generation of soldiers.
- Tank Platoon Commander: Receiving the certification of excellence in the battalion by delegating authority to the commanders under me and providing a personal initiation attitude to each one.
- Team Leader: 9/11 of my soldiers went to Commanders Course, did it by motivational talks, personal example and giving faith in each of them.

## **Skills:**

- Single Page Applications and **PWA**.
- Server-Side Programming, **APIs** and **REST** with **Node.Js**.
- Frameworks: **Angular**, **React**, **Vue** including **RxJS**, **Redux** and **Vuex**.
- Databases: **MongoDB** and **MySQL**.
- Modern **JavaScript** (ES6) and **TypeScript**.
- Object Oriented Programming (OOP)
- **HTML**, **CSS** and **SASS**.

## **Education:**

[Coding Academy Israel Bootcamp](#) | [Nov 2022 – Feb 2023](#)

An intensive coding bootcamp (640 hours) that qualifies Full Stack Developers.
